Fire Procedures

- 6. <u>Fire Prevention</u>. In order to prevent a fire from occurring Users are to be made aware of the following measures which are to be implemented and adhered to:
 - a. Combustible materials are not to be left outside the building, thereby, being accessible to potential arsonists. They are to be placed in the bins inside the halls, or if too large, in the bins outside the hall.
 - b. The no smoking policy is to be adhered to at all times.
 - c. Portable electrical equipment is inspected at regular intervals. If users require to use their electrical equipment for their planned activities these must have a valid Portable Appliance Test certificate.
- 7. <u>Escape Routes</u>. There are 3 escape routes from the hall rooms:
 - a. Fire exits in the hall;
 - b. Main entrance doors to the hall; and
 - c. Door at the rear of the kitchen.

The most appropriate exit should be used in the case of a fire. At all times these exits must be kept clear and fire doors remain shut.

8. <u>Fire Extinguishers</u>. All users are to be made aware of the location of the fire extinguishers within the building. In the event of a fire, occupants should only use the fire extinguishers if they are confident and have been trained to do so. Occupants must not put themselves or others at risk if they attempt to fight the fire. The extinguishers are for use on small fires only; such as in a waste paper bin. If the fire has not been extinguished after the fire extinguisher is empty the fire is to be left alone, the alarm sounded, building evacuated and Fire service contacted by using 999.

- 9. <u>Fire Alarm System</u>. There are a number of fire alarm activation points in the building. These are activated by breaking the glass. All users are to make themselves aware of the location of these fire alarms prior to use of the hall.
- 10. <u>Emergency Evacuation Procedures</u>. Upon hearing the fire alarm the following actions are to take place:
 - a. The leader of the activity/party etc is to quickly and calmly direct people to the nearest exit.
 - b. Personal belongings should not be collected.
 - c. Leaders of the hall activity group are to check that all rooms and toilets are empty.
 - d. All personnel are to congregate at the fire assembly point, which is in the car park to the front of the hall.
 - e. Leaders of the activity group(s) using the hall are responsible for checking that all their people are present.
 - f. The leader of the activity group using the hall is responsible for contacting the fire brigade.

Procedures in the Event of an Accident

- 11. If a person using the hall has an accident the following actions are to be undertaken.
 - a. Use the first aid kit to administer first aid;
 - b. If the injury cannot be treated by first aid then assistance is to be sought by telephoning 999 and requesting an ambulance.
 - c. After the incident the accident book is to be completed. If the injured person has not been taken to hospital they are to co-sign the incident entry.
 - d. Inform the hall manager of the incident.
